GIRL POWER:

Massive well done to the year 5/6 girls' football team, who this week competed in the Selby District Finals. They won 1, drew 3 and lost 1, which resulted in a 2nd place finish! This means that we finished 2nd overall out of the 24 school teams who entered in the Selby area! Considering they only formed as a team this season, it is an excellent achievement. Great work, girls!

JUDO FUN:

Our children were very lucky this week —they were all taught some basic moves by a judo expert! They were taught the judo fall and the judo grab. A child in year 4 stated, "It was a joyful judo session and an amazing experience. The session was fun and active and the coach was wonderful".

EYFS: Awe and Wonder.... Last week the children went on to the field to see the duck and her ducklings. The children were amazed! They were extremely quiet whilst they watched, and then fed them a little bit of bread, which was left over from morning snack.

YEAR 1:

The children have been writing their own spring poems this week and have created some beautiful spring flowers pictures in the style Richard Spare.

YEAR 2:

In year 2 this week we have been creating our own marvellous medicines for Grandma. We have also written an explanation text to show what will happen to her when she takes it!

YEAR 3:

The children had a brilliant afternoon looking at Ordnance survey maps of the local area and discovered some of the symbols that are used to show different objects and places. We then created our own maps using the symbols and added a key.

YEAR 4:

On Thursday 26th April, Classes 9 and 10 visited Headingley Cricket Ground to take part in 'Cricket in the

Classroom'. "It was an exciting and **very** educational day for all children." said Charley Hodgson in class 10. The children represented the school brilliantly!

YEAR 5:

In Maths we have been reading and writing decimal numbers as fractions, as well as recognising and using thousandths and relating them to tenths, hundredths and decimal equivalents. We must say that the level of understanding was amazing. In English we have focussed on writing radio adverts based on the 'Maya Creation story'. We have now begun changing the ending, to include our own race of men/women. Which will prove the most successful for the future of mankind?

YEAR 6:

In year 6 this week we have been 'looking' at how we see – the children had fun with mirrors, proving how light travels in straight lines and is reflected off opaque objects (this included spending some time underneath the table!). We also looked at a book without words to define our inference skills.
