Why does Christmas matter to Christians?

Maths - Number and place value, addition/subtraction, measures, multiplication/division, and geometry.

PE - dance and invasion games

British Values - Remembrance day

Whole school events:
Anti-bullying, Remembrance

In science, we will be studying parts of the human body and our senses. We will also investigate the properties of everyday materials. and observe seasonal changes.

In ICT, we will learn what algorithms are through the use of Bee-Bots.

In D&T, our focus will be building structures. We will make houses for the characters in one of our stories.

VIPs

(Very Important People)

In art, we will practice sketching facial features. We will practise shading with a pencil and mixing paints to make different colours. These skills will be used to create self portraits.

In English, we will listen to, and read, traditional tales. We will study the characters within these stories and think about how a story is structured. We will write information texts about important people. We will listen to the poem of "The Sound Collector" and write our own.

In history, we will study changes within living memory by comparing our toys to those played with in the past. We will also learn about, and compare, the lives of some important people in history.
