

Medium Term Plan - Year 2 Transport

Non-Topic Overview

RE - What do Christians believe God is like?

Maths - Number and Place Value, Addition and Subtraction, Measures, Multiplication and Division, Geometry

PE - Dance, Striking and Fielding Games, Athletics, Basketball

British Values - Remembrance

Whole school events: Harvest Festival, Children in Need

Design Technology

We will be designing and creating our own vehicles, focussing on wheels and axles through the text 'Mrs Armitage on Wheels'.

Art

The work of Andy Warhol will be our stimulus to explore different media, such as painting and drawing.

History

The theme of transport will be linked to pioneering adventurers through the study of Christopher Columbus, Amy Johnson and Neil Armstrong. We will also look at first flight.

Literacy

The 'Little Red Train runs away' will be our main text this term. From this we will write stories and create our own poetry. We will learn about non-fiction texts, linked to our topic.

Transport

Science

We will look at everyday materials, linked to modes of transport, finding which materials are most suited to not only our own vehicles, but also the transport we use.

Computing

We will think about common uses of technology beyond school and use technology purposefully to download and save photographs and other files.

Music

Using our transport theme, we will explore different types of composition.
