

Year 3 Medium Term Plan Autumn 2018

PE: Dance Multi skills	Maths: Numbers and Place Value . Addition and Subtraction. Shape	RE: What do Christians learn from the creation story?	Music: Volcano songs and composing	ICT: Word processing	Whole School events: Harvest and Christmas
---------------------------	---	--	---------------------------------------	-------------------------	---

Geography:

We shall be investigating how volcanoes and earthquakes are formed, the parts of a volcano and different types of volcanoes. We shall also use map skills to locate volcanoes and earthquake zones around the world.

We shall also consider the effect that living near a volcano has on

History:

We shall investigate how developments of different materials affected life in Britain from the Stone Age to the Iron Age. We shall look at their tools, clothes, homes and food.

Science:

We shall investigate different types of rocks so that we can group and compare them. We shall look at how fossils were formed and their importance in knowing what life was like in those times.

Rocks through the Ages

SMSC: What effect does living near a volcano, or in an earthquake zone have on people?

What would happen if disaster struck?
Where would help come from?

English:

Using the books Victor the Volcano and Stone Age Boy we shall write descriptions of the characters and settings and write our own stories using descriptive writing. We shall read poems about volcanoes and use expressive language to produce our own poems. Our non-fiction writing will include information texts about fossils and a biography about Mary Anning

Art:

We shall look at how cave paintings were produced and use these ideas to produce our own paintings.

British Values:

Democracy
- electing children for school council and worship

D/T: We shall look at the importance of levers and linkages in everyday life. We shall produce a greetings card with a lever on it.
